

ENVIRONMENTAL POLICY

Leighton United is committed to protecting the natural environment at the club's ground as far as reasonably possible. This will be achieved by:

- Ensuring that developments take account of environmental considerations and are sustainable for current and future generations.
- Prudent use of natural resources, including the use of recyclable materials whenever possible.
- Minimising all forms of waste as far as possible.
- Collecting and disposing of litter on site before it becomes an eyesore or effects neighbouring properties.
- Segregating wastes to recycle as much as possible. Waste will be collected by a carrier registered with the Environment Agency and in accordance with legal requirements.
- Ensuring that foul and dirty water does not enter adjacent watercourses.
- Minimising the use of pesticides for ground maintenance to that absolutely necessary.
- Using environmentally friendly and safe products for pitch white lining.
- Trimming perimeter hedges outside of the bird-nesting season.
- Sympathetic site management to allow the development of natural habitats.
- Controlling off-pitch vegetation so that it does not cause nuisance to neighbours.
- As far as reasonably possible, ensuring that noise does not cause a nuisance to neighbours.
- Complying with relevant environmental legislation.
